- Developed responsive user interfaces using React.js.
- Developed reusable components and integrated REST APIs.
- Implemented basic CRUD operations using Node.js and Express.js.
- Debugged frontend issues and improved responsive UI behavior.

Education

○ B.E Computer Science and Engineering

2020 – 2024

B.E in Sri Ramakrishna Institute of Technology, Coimbatore CGPA: 7.5

Projects

Personal Portfolio Website [🔗](#)

- Built a fully responsive portfolio to showcase projects and skills using React.js and modern CSS. Implemented dynamic components, smooth animations, and a contact form. Optimized performance and accessibility achieving 92 Performance and 87 Accessibility in Lighthouse.

TamilMoviesHub [🔗](#)

- Built a React SPA with realtime search, server-side pagination, and CRUD via fetch against a REST API. Managed all UI state with useState / useEffect hooks loading states, form data, and page control. Designed a responsive dark-theme UI using Tailwind CSS with animated skeleton loaders and a modal overlay and Deployed the application on Vercel and managed version control with Git.

Gemini-2 Web App [🔗](#)

- Developed an AI chatbot interface using React, Context API, and REST API integration. Implemented typing effects, Markdown rendering, fade animations, and responsive conversational UI.

JavaScript DOM Utilities [🔗](#)

- Built multiple interactive utilities using Vanilla JavaScript and DOM APIs. Developed a text formatter supporting uppercase, lowercase, bold, and italic formatting. Implemented dark/light theme toggle using dynamic DOM state updates. Integrated a quote generator using Fetch API to retrieve random quotes. Demonstrated event handling and realtime UI manipulation without frameworks.

Certifications

- Completed the **Java Full Stack** course in Besant Technologies, Chennai.
- Python for Data Science, Cognitiveclass.ai powered by IBM Developer Skills Network
- BEC Preliminary Exam, Cambridge University
